AMANDA POUSETTE

CREATIVE DIRECTOR & STRATEGIST

My approach is Entertainment First: finding the story or experience people want to engage with, then connecting that attention to a clear business purpose.

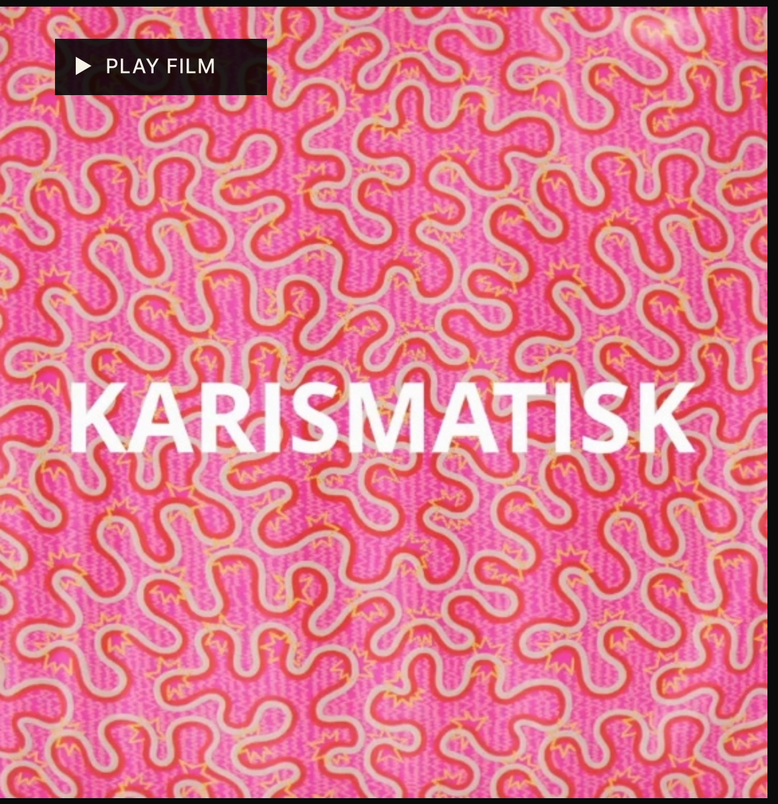

My background across film, music, live experiences and digital work helps me find unexpected connections and fresh directions for a brief. I enjoy asking questions, challenging an initial brief and giving teams a clear idea to build on.

SELECTED CLIENTS

IKEA / ADIDAS / VOLVO / MARSHALL / UNIQLO / ARLA / ACNE / SONY MUSIC
JONAS ÅKERLUND / TOM HOPE / MATSMART

LISBON / REMOTE

LINKEDIN

THE IDEA

A COLLECTION LAUNCH. A FASHION EVENT.

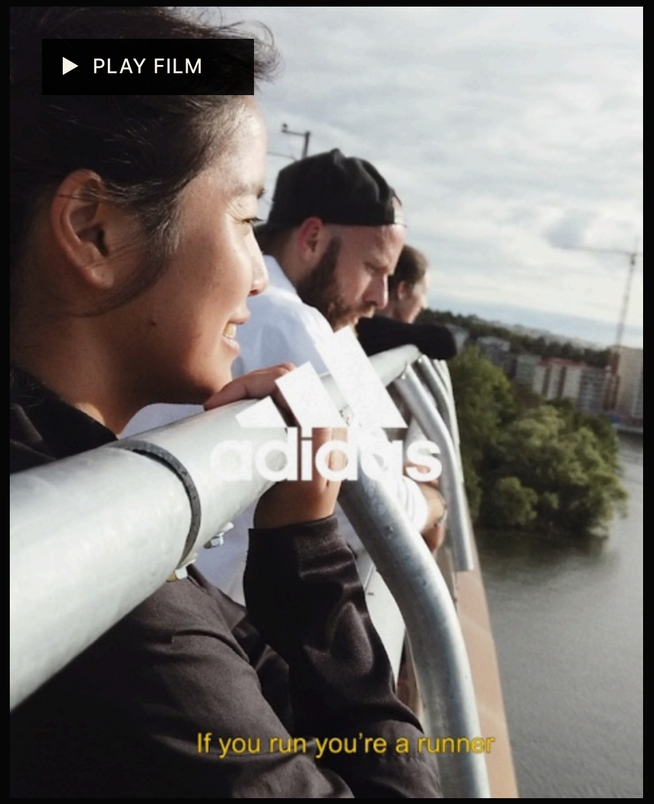

THE APPROACH

The concept turned the IKEA × Zandra Rhodes collection launch into a Fashion Week-style hybrid experience. Transforming rooms introduced the collection before a livestream catwalk at the IKEA Museum. Films, installations and productions in London, Stockholm and Älmhult connected the idea across the global launch.

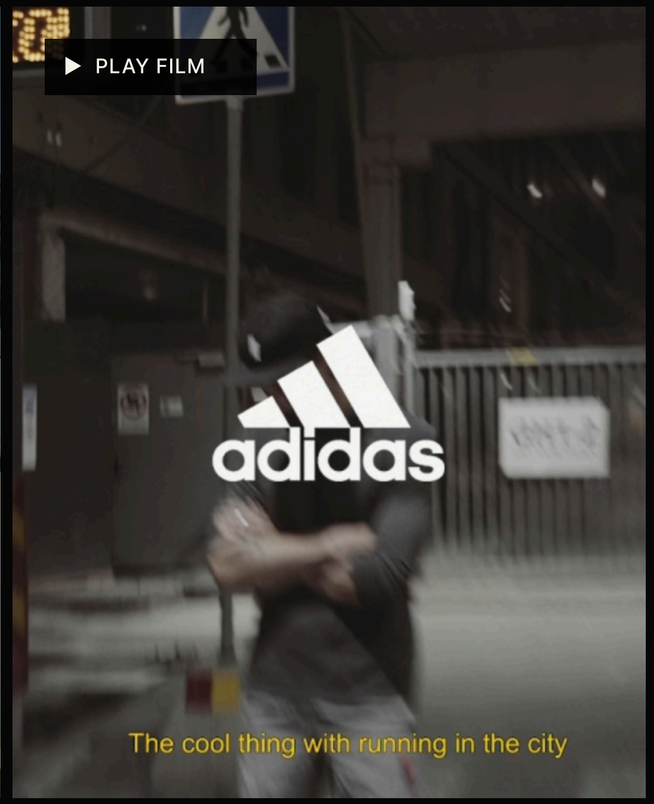

MY ROLE / RESULT

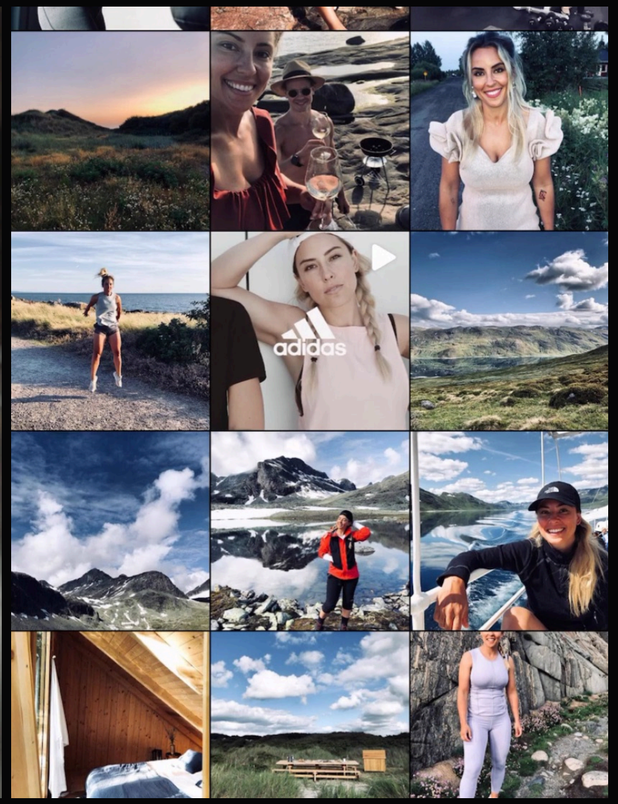

Won the pitch with an original idea and concept. Led global creative direction, film direction and production.

Collection sold out globally in 3 days.

THE IDEA

CREATORS STUDIO. BUILT AROUND COMMUNITY.

THE APPROACH

Created Creators Studio for Adidas, bringing influencers, artists and athletes together through classes, events, technology workshops and community. For Ultraboost 19, two connected content streams served Adidas' channels and participating running clubs and influencers. The films were shared through those communities and the events we produced, connecting the content with the live experience.

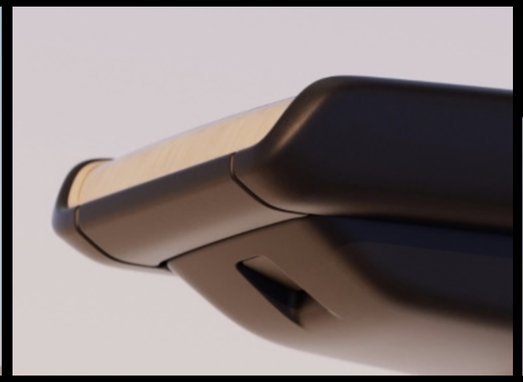

MY ROLE / RESULT

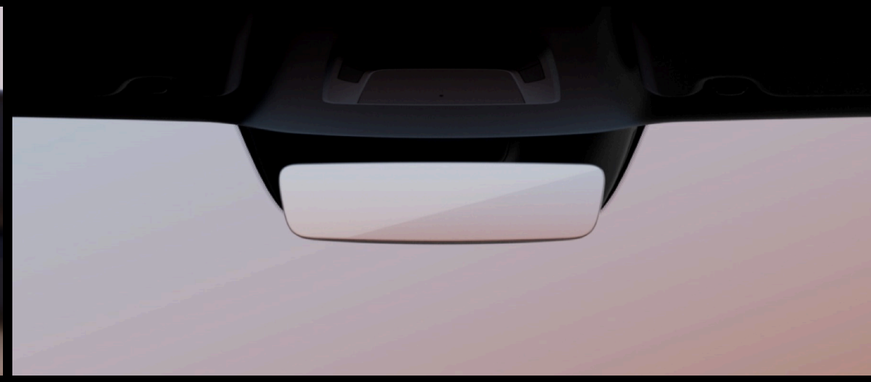

Created the Creators Studio and developed the content strategy and scripts. Filmed, edited and produced the original music.

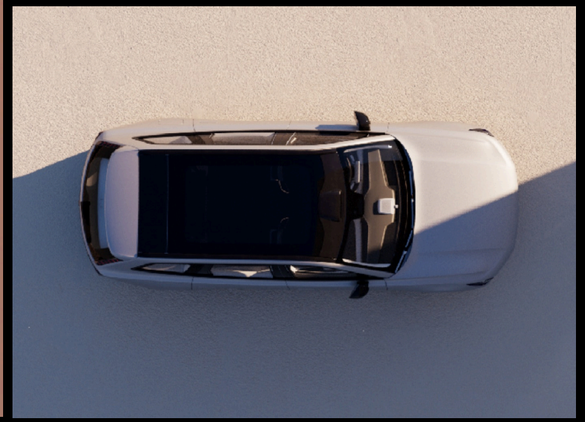

Delivered 15 social-first films.

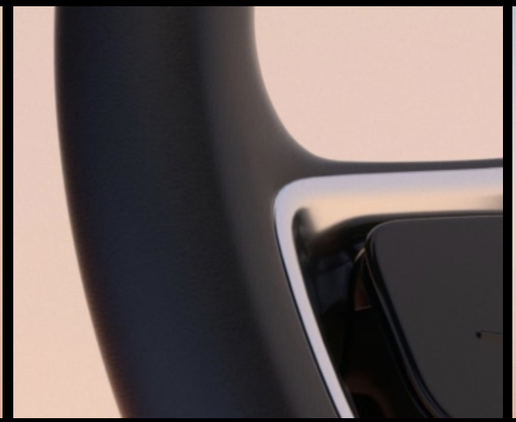

THE IDEA

FROM AN ASSET BRIEF TO A CONNECTED LAUNCH.

THE APPROACH

An initial brief for a few EX90 assets grew into an integrated launch. One creative expression connected the event in Kungsträdgården with social content, photography and digital screens throughout the venue. Presentations and launch communication were developed directly with Volvo's CEO and leadership team.

MY ROLE / RESULT

Led the creative direction, visual concept, live photography and event.

Worked directly with Volvo's CEO and leadership team.

THE IDEA

ONE LUXURY BRAND WORLD. BUILT WITH AI.

THE APPROACH

Chiyo’s brand world is taking shape around a consistent identity and visual language that extends beyond the jewellery itself. Gen AI brings the direction to life across campaign imagery, product presentation, packaging, catalogues and retail concepts.

MY ROLE / RESULT

Developing the brand identity, communication and Gen AI creative direction.

An ongoing client assignment, currently in development.

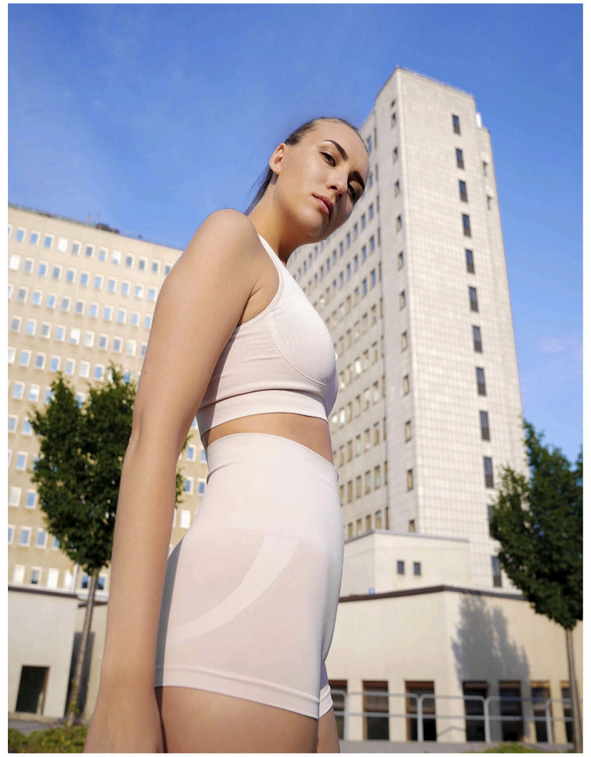

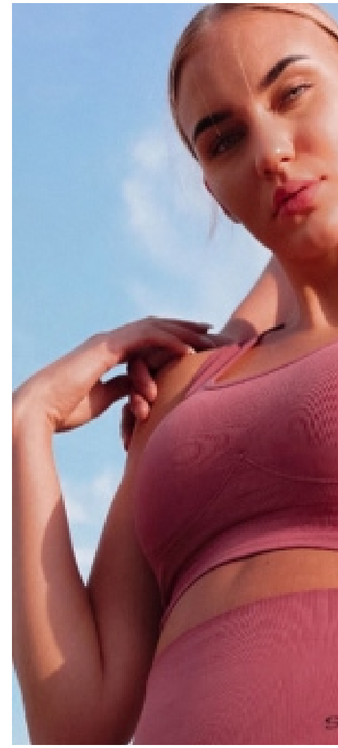

THE IDEA

A BRAND BUILT THROUGH COMMUNITY.

THE APPROACH

With no model or media budget, real community events and ambassadors became the foundation for Stay in Place's growth. A coherent identity, sports bra design, photography and film gave the brand an expression that could grow with its community.

MY ROLE / RESULT

Created the identity, designed sports bras and produced the photography and films.

Built a network of ambassadors and 9K organic Instagram followers.

ENTERTAINMENT FIRST. FROM IDEA TO IMPACT.

I start with the story or experience people want to engage with, then connect that attention to a clear business purpose. The idea leads the creative direction, the production and the tools.

ONE CREATIVE IDEA. CONNECTED THROUGH DELIVERY.

I give teams a clear direction to build on, from the brief and preparation to the set and final delivery. Real production or an AI-built world can be the starting point. Node-based workflows help extend the idea while keeping the brand coherent.

01

ENGAGE

Find the story, experience or hook that connects the audience with the business purpose.

02

DIRECT

Shape the concept, key messages and visual world using the brief, source material and brand guidelines.

03

CREATE

Brief teams and lead the production of films, imagery and experiences, using live production, AI or both.

04

EXTEND

Adapt for audiences, markets, channels and formats. Use results and client feedback to guide the next iteration.

STRATEGIC THINKING. CREATIVE LEADERSHIP.

SketchDeck is growing its strategic offering. I bring the thinking to shape a brief, the ideas to win the pitch and the experience to lead the work through delivery.

For IKEA, that meant turning a collection launch into a global fashion event. For Adidas, creating Creators Studio around content, live experiences and community.

Let’s explore what that could mean for your clients.
